CONSULTANT

Your 5 Day Program

Pre-requisites:

- Obtained Roseline Deleu's Feng Shui *Practitioner* Certificate
- Having practised Feng Shui for min. 1 year
- Having consulted a reasonable amount of homes and units (to be discussed)

Topic 1—Real Estate

Help sellers to present their homes for sale with powerful Feng Shui suggestions. Understand the circumstances of their decision and help them detach in order to get the right price at the perfect timing. Is it a rental/investment home? Is it their own place? Is it an industrial or office space? Feng Shui has amazing solutions to help the place to sell (or rent) faster welcoming many purchase opportunities.

Topic 2—Sacred Sites

Visit of 2 Belgian sacred sites where consultants will be improving following skills:

- Understand what is a Sacred Site
- How previous churches and important monuments were built
- **Create your Sacred Site on your Property?!!**
- Dowsing (Ley Lines, Underground Water)
- Connect with the Spirit of the Area
- Concept of the Golden Mean

Topic 3—Tourism

You research the history and geography, then together with Roseline and the group, we organise a Feng Shui Guided Tour in your city!

Topic 4—Art & Decorative Items

Visit of National Gallery and Art Museum in Brussels. Interpret the vibrations emanating from paintings and sculptures.

Together we will then wander through the streets of the city in search of decorative items, furniture and paintings that you could recommend to your client for their own home.

Topic 5—Healing

Health is the most important asset. How can a Feng Shui approach of life improve health?

Link of the 5 elements theory with our organs and a glance at Chinese Medicine.

What can you detect from your client's communication in regards to health. Can you suggest anything?

None of us is entitled to diagnose and never should we consider ourselves as a replacement or equivalent of a doctor! We are here to inspire and what you detect around people's homes is amazingly talking to you about their emotional health, linking it of course with imbalances within their bodies.

Topic 6—Hands On Consultations

Choose some houses in your area, friends and family and follow further Master's recommendations. The more you consult, the better and more accurate you are.

SENIOR CONSULTANT

Your 3 Day Program

Pre-requisites:

- Obtained Roseline Deleu's Feng Shui *Consultant* Certificate
- Having hosted or presented Feng Shui lectures in your area
- Actively Feng Shui consulting

Topic 1—Design New Projects

Delving into the Form School.

There is no such 'standard Feng Shui home'; it would be like giving the same hair cut to every person without taking into consideration their shape, age and body.

Looking at a vacant bloc of land, each student will design an imaginary house to be built there, based on Feng Shui rules and principles.

Topic 2 —Renovations

What is best, moving home or renovate?

How can you add a room or some space in a harmonious way blending it with the existing energies. Best is to have a project that would not feel awkward of course, how can you avoid traps.

Topic 3 —Landscape and Urban Design

New developments, new suburb. How do we start implementing Feng Shui on the land? How do we bring harmony in the neighbourhood?

Detect the principal elements in the area and design gardens, buildings and streets according to Feng Shui Principles.
