

Your Feng Shui ADVENTURE

in Europe

accompanied by Roseline Deleu
Feng Shui Master & Author

Belgium & France through Feng Shui eyes! The Adventure of a Lifetime...

A unique opportunity to visit these two countries like never before!

Precious time with your Feng Shui Master guiding, teaching and showing you some of the insights of Europe with a Feng Shui narrative:

- Ancients erected cathedrals, churches and chapels on energy points
- Buildings and their architecture influence people's behaviour and thinking processes
- Chinese were not the only ones using Feng Shui—Geomancy is popular in Europe
- Discover Chartres Cathedral and its labyrinth (France)
- Elaborate on urban development of cities with the impact of 'wind' (Feng) and 'water' (Shui)
- Forests and trees and their magical impact

Your Feng Shui Adventure is much more than interesting, it is also illuminating, exciting, fun, witty, unusual and definitely a trip that you will remember!

A short visit to Alsace (France) to see the difference in architecture and also to feel the magic of the Mont St Odile.
BYO divining rods and pendulum.

In Belgium we will visit more fascinating sites:

- Hitler "sacred" place during the 2nd WW
- The forest of Stambrugges,
- Celtic site of Aubechies,
- Undergrounds of the Royal Palace,
- Tervuren Royal African Museum,
- Museum and Horta houses.

Belgium is known all over the world for its beers, chocolates and cartoons. Its capital city has been elegantly decorated to reflect this artistic design. Our mission is to visit some of the cartooned facades and feel the impact on the population.

Roseline Deleu knows Europe very well.

Yes, there will be lots to learn, to see and to enjoy!

...and you will also: eat where locals eat, drink in typical cafes, have the possibility to watch a typical theatre play, walk around cities and see the authentic Europe. All this and much more— with the guidance of a Feng Shui Master.
